

HOOP POINTS

Bronze medal winner Gayle Searle with Runner up Hilary Thomas being presented with certificates from Event Manager Jim Carter

SA Bronze Medal 2025

The SA Bronze Medal Tournament for 9+ players was scheduled to be played over three days from Saturday 8 February to Monday 10 February 202. The event was managed by the North Adelaide Croquet Club and consisted of 9 players from the Millswood, North Adelaide, Brighton, Norwood and Coromandel Valley Clubs.

The warm weather became challenging in the preceding week with very hot weather forecasted for the three days. The SACA Weather Policy came into force in order to maintain the health and safety of all persons present during the event and at one point it was considered that the tournament might have to be cancelled and rescheduled.

However, at the last moment, the weather changed and the event proceeded with no further weather issues and cancellations.

At the end of the round robin on Sunday, four players – Gayle Searle, Hilary Thomas, Denis Ragenovich and Colleen Baumanis - proceeded to the semi-finals. After hard fought wins, Gayle Searle and Hilary Thomas proceeded to the final to make it an all North Adelaide singles grand final with Gayle Searle eventually winning the final 5 games to 3 games. Well done to both grand finalists and to all players who represented their clubs in good spirits.

A big thank you to all the referees (David Stumm, Ansi Baumanis, Ann Woodhouse, Kim Millhouse, Karen Magee, John Arney and David Wise) who volunteered their time to ensure the success of the event. A thank you also to Kim Millhouse for his pre-tournament work and guidance and to the North Adelaide Croquet Club members (William Pennino, Norma Greig, Karen Tierney and Jon Kirwan) who volunteered their time and skills to ensure that the tournament ran smoothly.

Jim Carter – Event Manager, North Adelaide Croquet Club

Trish Fazackerley

Many members of the Croquet Community, along with family and friends, attended the Funeral Service for Trish in the lovely grounds of Partridge House, Glenelg.

Trish is sadly missed by Geoff, Peter and Chris. She was a caring and loving wife and mother.

Trish was much loved and highly respected by The SA Croquet Community. She was always willing to help with a smile. She very capably managed the office and administration of Croquet SA.

Trish was born in England and in her late teens moved to Adelaide with her family. She spent time working in Beijing at an embassy and then moved to London where she met Geoff. They later moved to Adelaide where they started their family.

She was the driving force of Woodville Croquet Club . She travelled interstate and overseas playing Gateball. She had many friends in the different forms of Mallet Sports.

Our very best wishes go to Geoff, Peter and Chris for their future.

Kevin LePoidevin

Meet The SACA Committee

Kevin Le Poidevin -- President of Croquet SA

I grew up in Reynella when it was a small and isolated town with a strong community and sporting spirit. Reynella is famous because its winery is one of the oldest in SA. I was the eldest of 6 children. I lost one brother at 65 years old. My 2 brothers and I played football and cricket and one brother played tennis. I played volleyball until I was 52 including managing/ captaining most teams and I did some coaching / managing of senior league volleyball teams.

After Teacher's College I went to Pt. Augusta where I met Sue soon after arriving. We spent 9 years in Pt. Augusta where we had a house built. We have been together for nearly 50 years. I taught students 5 years old to 13 years. Our 2 fantastic sons were born in Pt. Augusta and we now have 7 wonderful grandchildren. I coached most of my sons' sporting teams and they played lots of different sports.

I started playing Croquet at Norwood CC about 15 years ago, after I retired from teaching. I was there for 7 years and kept asking Sue to play. She finally said yes but, with child minding duties, North Adelaide time slots matched us better. We were there for 7 years. Sue was GC Captain and I was President for most of that time. In 2023 we switched back to Norwood and have been there for over a year.

Initially I started playing AC and was coached by Aileen McAffery who told me for a year, "Don't you play that funny game." (Golf Croquet). However it looked like a great game so I played both forms.

In Sri Lanka

TWILIGHT CROQUET at the KADINA CROQUET CLUB

In February, the Kadina CCI hosted 2 Twilight Croquet Evenings. The first on 7th was very well attended and members and their guests could choose either Aussie or GC with about 50/50 which was great! The weather was quite nice but my word, by the time it got to 7.30, that wind picked up and everyone was running for the clubhouse for nibbles and a chat. However, on 21st the weather was absolutely beautiful for evening croquet. Because of the success of the previous event, we decided to put on a 'simple' sausage sizzle and with the balmy evening, everyone really enjoyed sitting outside and inside and having a good old 'chinwag'.

Both evenings attracted about 35 players and the age range was 19 – 91!!!! What other sport can be done by basically 4 generations! Of course, we hope that some of our visitors will join the club but with very busy lives and lots of entertainment on offer, we can only sow the seed of croquet in their minds and being able to spend 'quality time' with your teenage children or even grandchildren, it can only be a positive experience and helps spread the word about croquet around the area.

Linda Kinch

Australia – President's GC Eights

An annual event on the Croquet Australia Calendar is the President's Eights. There are 5 groups of Eights, where players are ranked due to their World Croquet Federation Ranking.

The First Eight was held in Tasmania in January and Edward Wilson from Millswood won it. The remaining 4 groups of Eights played at Cairnlea in Victoria from 7th to 9th February. The 4 groups are also ranked with the 5th Eight being reserved for female players.

David Maunder (Brighton) and Mick Reidy (Hyde Park) played in the 2nd Eight.

Dave played extremely well, winning all his best of three game matches, in fact over the 2 days he only lost one game, to the player that was initially ranked the strongest.

You could say he really didn't get his money worth, playing only 2 games in 6 of the matches.

Congratulations Dave, on an outstanding achievement!

Mick Reidy also played well, with several close games and 2 matches that went to the 3rd game. Mick won 2 of his matches during the weekend.

Karen Magee

[Dave Maunder from Brighton after winning the President's second eight](#)

Meet The SACA Committee

Kim Millhouse

What club do you play for? I play for Millswood but am an associate member of Brighton where Ann and I are learning to play Aussie and Ricochet Croquet.

·Which code of croquet are you mostly involved with? While I have played and appreciate Association, my passion is for Golf Croquet.

·How long have you been playing croquet? I had been playing Golf Croquet for about a year at Reade Park before I retired, about 10 years ago. I noticed when we played friendlies against Hyde Park they all played with their hands together. And they kept winning so I decided if we were to beat Hyde Park, we would have to get better so I tried out at Millswood and was advised how to change to a hands together grip.

·How were you introduced to the game? Big sister had a go and said, "Kim you will love this game. Come and try" The rest is history.

·What do you like about playing croquet? It is a good fun tactical game, like chess on grass. The camaraderie is mostly good and I enjoy 1 on 1 competition.

·Where did you grow up? I grew up walking distance from the Unley Oval.

·Have you played other sports? Before our children started playing football and netball, I played golf. Once the kids started playing sport I was on transport and coaching duties.

·What did you do for work? Are you still working? Retired 10 years ago. Prior to that I was predominantly a salesman working in agricultural, horticultural nursery and turf industries. I owned a video store immediately before retiring.

·What role do you have on the Board? I was unavoidably absent for my first meeting so I do not have a defined task on the board yet but will probably bring directions to and from the GC Committee and the board.

·What family do you have? I have a mess of sisters, two of whom play croquet and are heavily involved within the sport. One of them edits this magazine, the other is President of the Millswood Club.

Ann, my wife plays croquet very well, We have a son making squillions in the mines at Roxby and a daughter teaching art at Keith.

She has 3 gorgeous children, our grandchildren. (1,3,5)

·What are your interests outside croquet? Grandchildren.

I have been working to help the youngest say Papa. I have had some success.
What skills do you bring to the role?

I am no Peter Martyniuk but I can use a computer
Experience in several roles within croquet.

On the management team at Millswood for a number of years.

Manager of the SA GC State team for a couple of years.

It is my second year as coach of the SA GC State Team

I coordinate the GC Individual Events (Tournaments)

Spent a few years as GC coaching coordinator

My life philosophy is that you can't please everyone all the time, but you can try.

Coaches Recall

Q What do you do with a group of GC coaches, who have come together as part of their qualification maintenance, when its forecast to be 43 degrees outside?

A Turn on the air-conditioning, stay inside but go ahead anyway.

Over 20 coaches attended the coaching refresher course on 12 February. Laura Eden organised the participants and Barry Haydon ran the 'adult learning' session with help from the Wise boys (David & Phil).

Barry developed the session which focused on coaches coaching strategy and tactics with the use of scenarios. If you can see one of your coaches in the photo ask them what they thought.

If your Club doesn't have a qualified coach, then talk with either Barry or Laura to see if the problem can be rectified!

Barry Haydon

Revsport is coming

What is Revsport?

Revsport is a member management package that provides a host of other features to assist clubs and sporting organisations in managing their sport. To quote their promo brochure, "RevolutioniseSPORT is built to empower sporting organisations to simplify their duties and focus on what's important".

What does Revsport provide?

- Online registrations – provides a seamless rego process & enables online payments.
- Manage finances – spend less time chasing money with centralised finances.
- Organise club events – create & manage tailored events linked to your website.
- Receive a free website – display news, collect regos, sell products – linked to you admin portal.
- Communicate in bulk – send emails and SMS to members individually or in bulk.
- Manage competitions – manage integrated draws, eligibility, ladders and player performance. Includes official rostering and reporting.
- Governance – a suite of governance tools available (e.g. minute recording and storage) to ensure every aspect is smoothly and accurately maintained.

Why Revsport?

For several years Croquet Australia has been looking for an effective tool to manage membership across Australia. Until recently it has relied on the states to perform this task. They have decided Revsport will be the system to be used across Australia by ALL state organisations.

Croquet Queensland has already adopted and is fully operational with the system. They are very pleased with the service provided. Croquet NSW more recently adopted Revsport and are also pleased with initial implementation.

In South Australia we currently rely on a spreadsheet membership system that is complex to maintain and has been difficult to manage. Revsport will be a significant upgrade in the quality of Croquet SA's membership management.

What will Revsport look like?

Croquet SA will manage the operations of the State with selected administrators having controlling access. Managers of events will have restricted access to manage competitions. Referee and coaching managers will be able to use the system to record levels of experience and communicate accordingly.

Clubs will be able to have a club portal that will allow them to access and maintain their membership as well as access the range of additional facilities as listed earlier. A free website, for instance, will save clubs money. It will not be compulsory to take up a portal, but the features and potential dollar savings would make it logical to be involved.

What will Revsport cost?

Croquet Australia has agreed to pay for all states and all clubs who wish to be involved. This agreement is for 3 years – all that Revsport management will negotiate. My expectation from discussions is that CA will continue to pay into the future. There are significant savings if CA negotiates an arrangement for Revsport on a national basis.

This will not come without some cost to members. My personal (and very rough) estimate is that CA will need to add about \$3 per member to their annual fee. If SA negotiated alone it was expected to add around \$10 per member to costs so we save with CA taking the lead.

My expectation is the lesser load on our Admin Officer at Croquet SA will eventually save us much more than the \$3 and I expect a lesser rise in the Croquet SA fee in future years.

Concerns have been expressed about the cost of making payments via the Revsport system.

Currently, we understand that the following fees will apply (and will need to be incorporated into fees –

Pin Payments – 2% + \$1.60 (credit cards)

Paypal – 2.6% + \$1.63

Other (e.g. bank deposit) – No fee

When will we see Revsport?

The Croquet SA member and club lists have been sent to Revsport management with clubs loaded and members to be loaded by the middle of February. Our plan is to induct 2 willing clubs (Brighton and Hyde Park) to their portal in mid-February. A trainer from Revsport will be in Adelaide on 18 February to train key administrators and train representatives from these clubs. We are rapidly learning about the features of Revsport and when we have absorbed the new info provided at the training, we will put together a training program for clubs in SA. The plan is to do groups of clubs together including visits to regional areas. Stage 1 will be a demonstration of features for clubs. This will be followed by training for club liaison persons if clubs wish to have a portal

What is the issue with Date of Birth and Revsport?

Unlike most other states croquet organisations and sports groups, Croquet SA did not collect date of birth data as part of initial registration of membership. We only had age ranges for members which were, in most cases, not maintained.

Date of Birth is one of the few factors that provides security for members preventing others from accessing their record.

Date of Birth will be a key security factor the first time a person tries to log in to Revsport and set up a password. There will be issues where a person has not provided a date of birth that will need to be resolved by club administrators. This can be corrected but will take time for clubs to address.

Want more info on Revsport?

You can always look at the Revolutionise website (revolutionise.com.au) and review their summary. Otherwise, I have an electronic brochure from Revsport which you can obtain by emailing me (it doesn't print well) (grazzadi@bigpond.com). If you have further questions I am happy to try to answer them.

Graeme Thomas
Croquet SA Revsport Administrator

David Magee
Croquet SA Revsport Administrator

February Newsletter Croquet SA Board

The Board's position regarding Rev Sport is that we support the introduction of Croquet SA into a Croquet Australia Data Base which should serve our needs well into the future.

There will be some teething problems as we try to integrate this system.

Graeme Thomas along with David Magee are the prime facilitators. David has considerable experience with a similar product used in Masters Swimming SA during the last 5 years.

We need a data base because our current membership system was developed using a spreadsheet which is inefficient, inflexible and the cause of much frustration and errors. It is not an efficient use of Jess' (Administration Officer) time.

There are many benefits of using the Rev Sport system as have been highlighted by over 2 years of use in Croquet Queensland, and from other very positive reports in Croquet NSW, ACT as well as SA Dragon Boats. Basketball SA have a similar system but I don't know if it's with Rev Sport.

The reality is things are now far too complex and this system will provide much needed assistance. We also get a website, calendar and other components which we currently pay for.

If you would like to provide a set of questions, David or Graeme will answer them and will can publish their response.

The Following set of answers have been published on Google Groups before but some people said they didn't get them. Whilst there are a lot of advantages, it would be good to know eg. club membership, events, competitions? Individuals. more precise details on what is required by clubs and individual members.

THE MEMBERSHIP MODULE OFFERS? The data that SACA has for members, is that ported into Rev Sports by SACA?

Yes. I have converted the SACA DB into the format required for Revsports. The basic Club data has already been loaded and we hope to load member data by the end of January.

?

Is there any flexibility with regard to passwords or password formats required by Rev Sports?

As I understand it (and we have not seen it fully operational), all administrators will have 2 stage security. David and I must enter a code sent to us as well as our regular password. Users will set their own password but I cannot tell you how this process will work.

After the initial input of data by SACA what is required by the member who wishes to play midweek pennants for example? If they wish to enter a competition?

Individual competitions will be entered and be paid for via the Rev sport DB. Teams is a different issue and we need to set up the process. Rather than a one-off fee per team and then \$7 per player on the day, we may need to change our processes to save paying the service fee for small amounts. Exactly how has not been discussed yet.

Renewing membership.

The preferred method will be payment via Revsport. If a person cannot manage this, they will need to work through their club liaison person so the ACA/SACA fees can be paid correctly. NOTE: the ACA fee includes the insurance component.

Getting a reimbursement of fees when leaving a club?

This will be up to the club to do outside of Revsport. I don't know clubs that offer any reimbursement – you pay for the year, ACA and SACA get their annual fee and then it is up to the club.

Type of acceptable payments for membership and competitions?

My understanding is all Revsport payments are via debit/credit card payment. If clubs want to accept cash, cheque or bank transfer, this is handled by the club and sorted out on Revsport by the liaison person. We will be exploring the alternative payment methods once we get the basics set up.

Clubs: new memberships – what is done by Revolution Sport after they receive memberships?

Not sure what you are looking at here. We have not seen this process in action but expect the individual will be able to lodge a new membership on line and an ACA ID will be issued (not sure by whom – probably ACA). types of membership – is it club input

Clubs will determine the types of membership they wish to offer and set all the fees. This will need to include the ACA and SACA component which will be processed on lodgement. For instance, if you have a club life member (not a SACA life member) you will set up a fee structure - ACA fee = \$x SACA fee = \$y Club fee = \$0 TOTAL Payment = \$x + \$y

Membership fees – is it club input

Yes providing it includes the relevant ACA and SACA fee types of payment – how managed and by whom. Not sure of the query. I think I have already answered this.

Amending memberships ie adding, deleting, - can clubs do this

YES clubs can do this. They control the memberships process within reasonable system bounds so you can do what you like.

How easily can clubs retrieve information regarding pennants, competitions and membership

We are yet to see this component in action but my advice is you (or at least your liaison officer(s)) will be able to see most components.

If a club has a Gala Day or other event is this done by RevSport or by the Club?

One of the big advantages is you can organise and manage events at your club via Revsport. Your liaison person(s) will set it up and those interested can enter and lodge payment that will be directly sent to your bank account. You can arrange and publish draws, etc..

Costs Precise initial costs? After 3 years costs? If not known give examples of what other organisations pay.

As indicated at the AGM, ACA has negotiated a good deal with Revsport for all of Australia for both State organisations and clubs.

Revsport will only set contracts for 3 years so it will be up to ACA to re-negotiate towards the end of the 3year period. My unofficial advice is that ACA will continue to pay on an ongoing basis rather than leaving states and clubs to negotiate individually. I think this is the preferred model for Revsport management as well. We will pay via an increase in the ACA fee. My guess is around \$3 per member which is about half what I expected if SACA entered alone as NSW and Qld have already done. What other organisations pay is not available.

Leaving Revsport. What happens to club's records if they decide to leave Revsports.

All member and basic club details records will be retained in Revsport while we continue to use Revsport as our membership database.

Members would still be able to enter events via Revsport. If a club decides to relinquish their club portal they will need to remove their data files (e.g. meeting minutes) or lose access. They would also lose things like the free website if they have set it up.

Graeme

Graeme's Letter

I think I need to clear up a few misconceptions re Revsport. To do this I have listed its history as far as Croquet SA is concerned. In early 2024 the ACA CEO advised a meeting of State Presidents that they were looking closely at Revsport to create a national database of members - something we and ACA have not had. The Croquet Qld president advised that they had been using Revsport for some months and were delighted with what it was offering. They had paid for the program themselves and were paying for club portals as clubs joined the program. The President of Croquet NSW indicated they also had paid for and taken up Revsport but had yet to get very far with implementation.

As President at the time I started to explore the system. At that stage the cost would have been borne by Croquet SA and thus our members. I believe it was essential that Croquet SA moved on from the current spreadsheet members database which was confusing to use and subject to corruption due to hidden formulae.. We had reps from Revsport visit and give the Board and selected techos an overview intro to their product.

In September the SA GC state team returned from Qld and reported strong support for Revsport among the Qlders. Shortly after, the CEO of ACA advised that they had negotiated a deal with Revsport to implement the system nationally and she indicated that ACA would bear the cost for all states and all clubs who wished to have a portal. Their agreement is for 3 years - the longest term that Revsport would negotiate and my advice is ACA will continue to fund into the future. My estimate is the cost will be around \$3per person pa incorporated into their ACA annual fee, considerably less than the \$10pa (approx) that it would cost Croquet SA if we proceeded alone. My expectation is that Croquet SA will, over time, save at least that amount. David Magee and I have been converting the Croquet SA data to the Revsport format. We have completed the "clubs" component and Revsport have loaded the clubs.

We have most of the information we need for "members" in the existing system and have manipulated it into the Revsport format.

The only thing we lack is date of birth information. For some reason Croquet SA is the only state which does NOT have dob, only age ranges. These have not been updated since initial recording and some are over 20 years out of date.

ACA and Croquet SA both have obligations to Federal and State governments to provide age profile data. Croquet SA is unable to comply with any degree of accuracy.

Croquet SA must load the member data before we can start training for us (David and I) and then inducting clubs who wish to have a portal. All clubs will have the option of taking up a free club portal.

The advantages are significant for clubs. I have asked Revsport for information on the advantages to clubs and expect a handout we will circulate soon. Re timing, we (Croquet SA and Revsport) agreed on a rough loading timetable for SA. We are only a week late with this process if we send our spreadsheet on Friday as planned. Our aim is to have all clubs willing to have a portal trained and be fully operational by 30 June. I have not gone into the security procedures for Revsport. We are learning about these as we go. We, as administrators, have to go through 2-level security access. Club administrators will have to do this as well. For individuals the best level of security, if they wish to use the database, will be their dob and then a password they will need to set up. I am happy to answer your queries and there are some facets we are still learning about. Regards Graeme Thomas

Croquet skills development at Kadina Croquet Club on 26th February

Members of Kadina Croquet Club were delighted and privileged to have Laura Eden, SA Golf Croquet coaching co-ordinator visit the club and share her expertise. Those who attended were of different skill levels, but all learnt something to help them improve their game. Laura set up a number of stations that each provided a different challenge. The games were simple and fun to play but the aim in all was to address the ball so as to hit straight or to focus on the distance of the hit. Long and short hits each have their challenges. The games had a competitive edge, so all focussed on getting their highest tally. Geoff Clavey, who has just returned to the game after illness won the 'Fun Time Champ' award and Kevin Routley won the 'Best Hoop Runner' key ring. After morning tea, and despite the heat, players divided into two teams for a hotly contested game of croquet Finska.

More and more Kadina players are starting to compete in Golf Croquet Gala Days throughout the state. Despite frequently meeting players who are highly skilled and experienced, she encouraged us to focus on playing with the attitude of improving ourselves. Winning is a bonus. Thanks to Jacqui Story and Sandy Shorne, level 1 GC Coaches for assisting Laura.

Kathy Snodgrass

Secretary Kadina Croquet Club

Geoff and Laura

Port Lincoln CC

Port Lincoln Croquet Club News

Bev Beelitz

Fun way to learn!

30 members and social players attended a "Coaching for Fun" morning on Sunday 23rd February.

Laura Eden from the Tea Tree Gully Club spent several hours with our club showing how we can improve our skills and knowledge of the game.

Laura holds the State position of "Golf Croquet Coaching Coordinator" and her time and patience was greatly appreciated.

She showed us how some simple drills can increase our accuracy and with the right grip and swing how effortless hitting the ball can be.

Tumby Bay Croquet Club

Club members are photographed here upon receiving the District Council of Tumby Bay Achievement Award having achieved 100 years. Marlene Poole is holding her certificate for Senior Citizen of the Year 2024.

Members from L to R: Rhonda Habner (Treasurer), Shirley Carr (life member), Marlene Poole (life member), Val Dyer, Robert Wilkins (life member), Robert Habner (volunteer curator) Terry Catling (Secretary), Karyn Speed (president), Michael Cabot (life member), Kathy Wilkins (life member), Jenny Williams (kneeling).

Australian Association Croquet Carnival

Adelaide 5th – 16th March 2025

Australian Association Croquet Gold Medal

The tournament will take place from March 5th to 7th at SA Croquet HQ, Hutt Road.

Six state Bronze medalists will battle it out for the top national spot.

Representing South Australia is Simon Hockey, ranked 7th in the world. With 30 years of experience. Simon, hailing from Jamestown, SA, is a formidable opponent and will look to dominate the competition. However, outcomes in croquet are never guaranteed, and even the slightest mistake could result in a loss in this technical game.

Australian Association Croquet Men's and Women's Singles

From the 8th to 11th of March, the Men's and Women's Singles will unfold across five venues across Adelaide, including Glenunga, North Adelaide, Norwood, Millswood, and Hyde Park croquet clubs. 64 local and interstate players will compete in an initial knockout format, showcasing all skill levels, from beginners to seasoned experts.

Eire Cup

The final carnival event will culminate with the Eire Cup from the 12th to 16th of March.

This team event is contested between Qld, NSW, Vic, SA, Tas and WA teams. Daily matches include both doubles and singles games. Matches will be played at Norwood, North Adelaide and SA Croquet HQ/South Terrace croquet clubs. As the tournament nears its end, the players' fatigue is palpable, but their skill levels will be at their peak, creating a thrilling atmosphere as the results unfold.

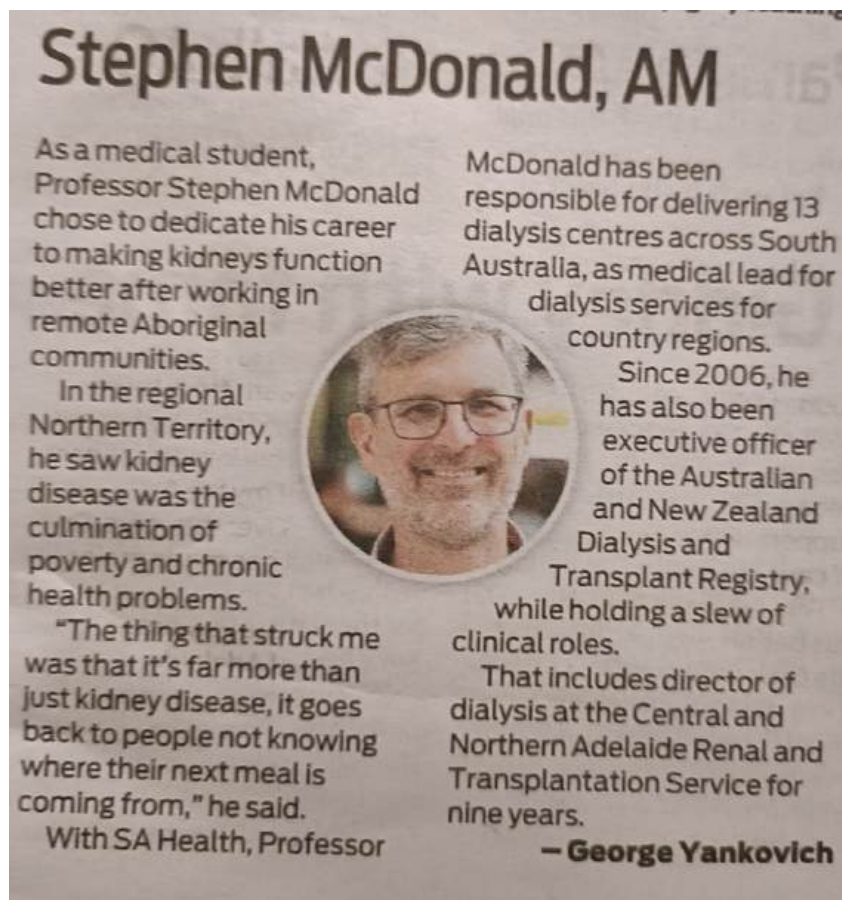

Don't miss the opportunity to witness the skill, strategy and elegance of Association croquet at this exciting national competition at home in South Australia.
